GENERAL INVESTIGATIVE DIVISION

This concerns the matter wherein on 11/28/75, Senator Frank Church's office received an anonymous telephone call advising that an assassination attempt would be made against Senator Church because of the activities of the Senate Select Committee. Caller made subsequent call 12/1/75.

Attached advises caller made three calls to Church's office 12/2/75, and in one identified himself as Abrom Hisler, Rockville, Maryland. Investigation has identified Hisler, born 1/24/23, as a former employee at Goddard Space Flight Center (GSFC), with long history of problems at GSFC and of questionable mental stability. During calls, Hisler stated he did not intend any threatening comments regarding Church, but only had a feeling of the Senator possibly being assassinated. He felt it was his civic duty to report an attempt on the Senator's life. It is noted investigation discloses no threats actually made.

Assistant U. S. Attorney Kaplan, Washington, D. C., advises case lacks prosecutive merit. No further investigation being conducted.

Above being furnished should Senator Church mention same in any conversations Bureau officials may have with him.

WFO will advise Bureau of results of Capitol Police contact with HISLER.

Telephone conversation of December 1, 9:50 a.m.

This conversation made little sense to me. He began by saying that he would give me a statement to give Senator Church that was "in capital letters."

"LTKS for let the truth be know so all know. I suggest that you put a slash with the letters DC and under the letters DC put a period and the letters TG and under T put a dash and following that the words change purse. Next to the second dash put GSFC

Let's get back now to LTKS. Put N/UN and this stands for the need to understand the nature of.

Put a dash under N for need and following the dash put an H for Herrod. Under that put GKB/F.

Under that is a W with respect to NASA. Under G is another period. After the period is the number 5771.

Now I've indicated before the number 7 for the year.

I told you that 57 stands for Heinz 57 varieties.

Cross that out and indicate that 57 stands for the 7th of May. After the 7 of May there is a slash and

what follows then is a copy of the above to [redacted] Staff and company for their study, review and critique.

Now when I refer to [redacted] I'm referring to [redacted] of NASA/Goddard. Now I plan to call again with my TP quote."

I asked him for his name but he said he preferred to remain anonymous "since I'm not as brave as Senator Church."

ENCLOSURE

Telephone conversation of December 2, 1975, 9:15 a.m.

The caller identified himself as Mr. Abrom Hisler, 5771. He indicated that he now had the Thomas Paine quote referred to in our two previous conversations:

"It is better to develop the whole argument in all its ramifications than to seek to stifle it."

He then said that he now has an argument by [redacted]

[redacted] "(-with psychiatric misuse, [redacted])"

b6
b7C

He went on to say:

"This is what would be a confrontation between two approaches. One would be the PQ approach. This would make use of a formula, F for feelings, H for heart and N for no.

"The other approach -- the XYZ approach -- makes use of the MAC concept.

"There is a need for a representative from the Goddard Space Flight Center to come by to talk to him."

I asked if there is a particular time he would prefer and where the representative should go.

"Yes, this afternoon would be better if it is possible. My address is 313 Congressional Lane, Rockville, Maryland."

I asked if he had a phone where he could be reached.

"My phone number is 881-0114. I don't know if it is warranted but I cannot come out. I'm afraid to leave my home to go to Goddard myself."

When asked why he was afraid, he said, "I prefer not to go into that."

I then asked if there was a particular person or division at Goddard that I should contact. He seemed reluctant to give me any specifics and said that if I gave Goddard the information about the MAC concept, they would know who to send.

ENCLOSURE

He indicated that he had sent other quotations to the office of Senators Mathias and McGovern. He had also called their offices.

He then indicated that [redacted] was the person we should contact at Goddard.

At this point the Capital investigator ~~repeatedly~~ spoke to him, pretending to be an aide for Senator Church.

Telephone conversation of December 2, 1975, 9:45 a.m.

He called again, this time asking for [redacted]
(the Capital investigator) who had identified himself
as an aide to Senator Church on the earlier call.

He said that he felt that we should contact [redacted]
[redacted] of Goddard Space Flight Center rather than [redacted]
[redacted] should "have some information concerning
what happened on the 7th of May 1971." "He could suggest
that I give [redacted] the Thomas Paine quote and some
additional insite of [redacted]

I asked him again for his phone number and he gave
881-0114.

He said he would call again.

He has a memo of June 25, 1970 that he wanted to read to me:

"It is important that the stem technique be safely left in the hands of responsible people willing to share its value with others of goodwill for it will otherwise provide the unscrupulous with a weapon of in human exploitation." He indicated that he would like to add a note to that. He got the idea from a book entitled "The Human Use of Human Beings," by Norbert Weiner.

He suggest^{ed} that in speaking with  we might refer to this memo and book.
